

Samvedana hospital

samvedana hospital, Ellisbridge, Below Karanavati Hospital Building, Opposite Town Hall, Ellisbridge, Ahmedabad, Gujrat, 380006

Patient Name: ajay h patel

Age: 20 Year(s)

Gender: Male

Patient Id: 201805012

Contact No: 1234656

Date: 06-06-2018

Chief Complaints

It is possible that this lady has pulled a muscle in her leg. Diagnosis of a muscle injury when there is no restriction in movement is difficult, and the treatment is the same as for a stress fracture.

Assessment Notes

Describe length of symptoms, any similar symptoms in the past and what attempts were made to decrease symptoms.

History of Present Illness

In patients with an ulcer present at the time of initiation of therapy.

Precipitating Event

?????? ???? ?????? ???? ?????? ??, ??? ????? ????????? ? ????

History

harting takes time and can be tedious. It is good to get into the habit of establishing regular time to get your charting done.

Permanent History

harting takes time and can be tedious. It is good to get into the habit of establishing regular time to get your charting done

take morning, evening and when needed

eyes drops

2. Capule Nasal sprays (1.5 mg) 7 day(s)

(Before Food)

take care

Investigation

The patient's willingness to disclose emotional concerns will depend partly on the ability of the healthcare professional to make them feel comfortable to do so.

Advice

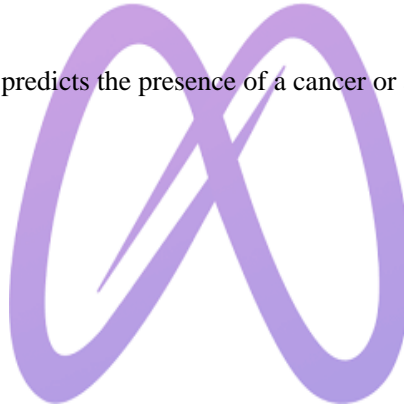

A positive test result for fecal occult blood predicts the presence of a cancer or an adenoma
