samvedana hospital, Ellisbridge, Below Karanavati Hospital Building, Opposite Town Hall, Ellisbridge, Ahmedabad, Gujrat, 380006

**Patient Name:** Soniya S Maheta

**Age:** 48 Year(s)

**Gender:** Female

**Patient Id:** S5362

**Contact No:** 9712289078

**Date:** 19/06/2018

## Chief Complaints

Hypertension, diagnosed “years ago,” well-controlled with Metoprolol.

## Assessment Notes

The patient denies fevers, chills, fatigue, and decreased appetite.

## History of Present Illness

In a patient who notes two weeks of feeling that it was a struggle to remember something that had happened only a few moments before

## Precipitating Event

This has been a longstanding problem for LH, and spinal.

## History

This patient is thrombocytopenic, with a platelet count of 66. This is caused by her TTP, so its treatment will be to treat the TTP.

## Permanent History

Next describe the story chronologically. If you believe that the chief complaint (chest pain) may be the direct extension of his ongoing chronic problem.

## Mental Status Examinations

Normal passive and active ROM in upper and lower extremities. No focal joint inflammation or abnormalities were noted.

## Lab Report

19/06/2018 04:12 PM - HB:46, ESR:82, T4:59,

19/06/2018 04:17 PM - HB:79, ESR:46, T4:13,

19/06/2018 05:12 PM - HB:45, ESR:56, T4:67,

19/06/2018 06:12 PM - HB:12, ESR:15, T4:16,

19/06/2018 05:55 PM - HB:45.5, ESR:78.5, T4:12.4,

19/06/2018 02:00 PM - HB:25.4, ESR:15.5, T4:12.5,

## Allergies

Contact dermatitis Recorded by Dr. Mrugesh Vaishnav

## Body Composition

T:140 P:15 RR:7.6530612244898 BP:624

## Diagnosis

Headache - Secondary

## R<sub>x</sub>

1. Injection Insulin (150 ml) 1 day(s)

0-1-0 (Before Food)

Once in the afternoon, after lunch

2. Cream Acne (5 ml) 1 day(s)

After food

Take 1 tablet per month after food

take it empty stomach

## Investigation

Neoplastic processes can precipitate TTP, so once the patient is past the acute phase of her TTP, efforts will be made to improve her cancer screening.

## Advice

This patient is anemic, with a hematocrit of 0.34. This is a hemolytic anemia, and is caused by her TTP.
